# AI Chat Screen

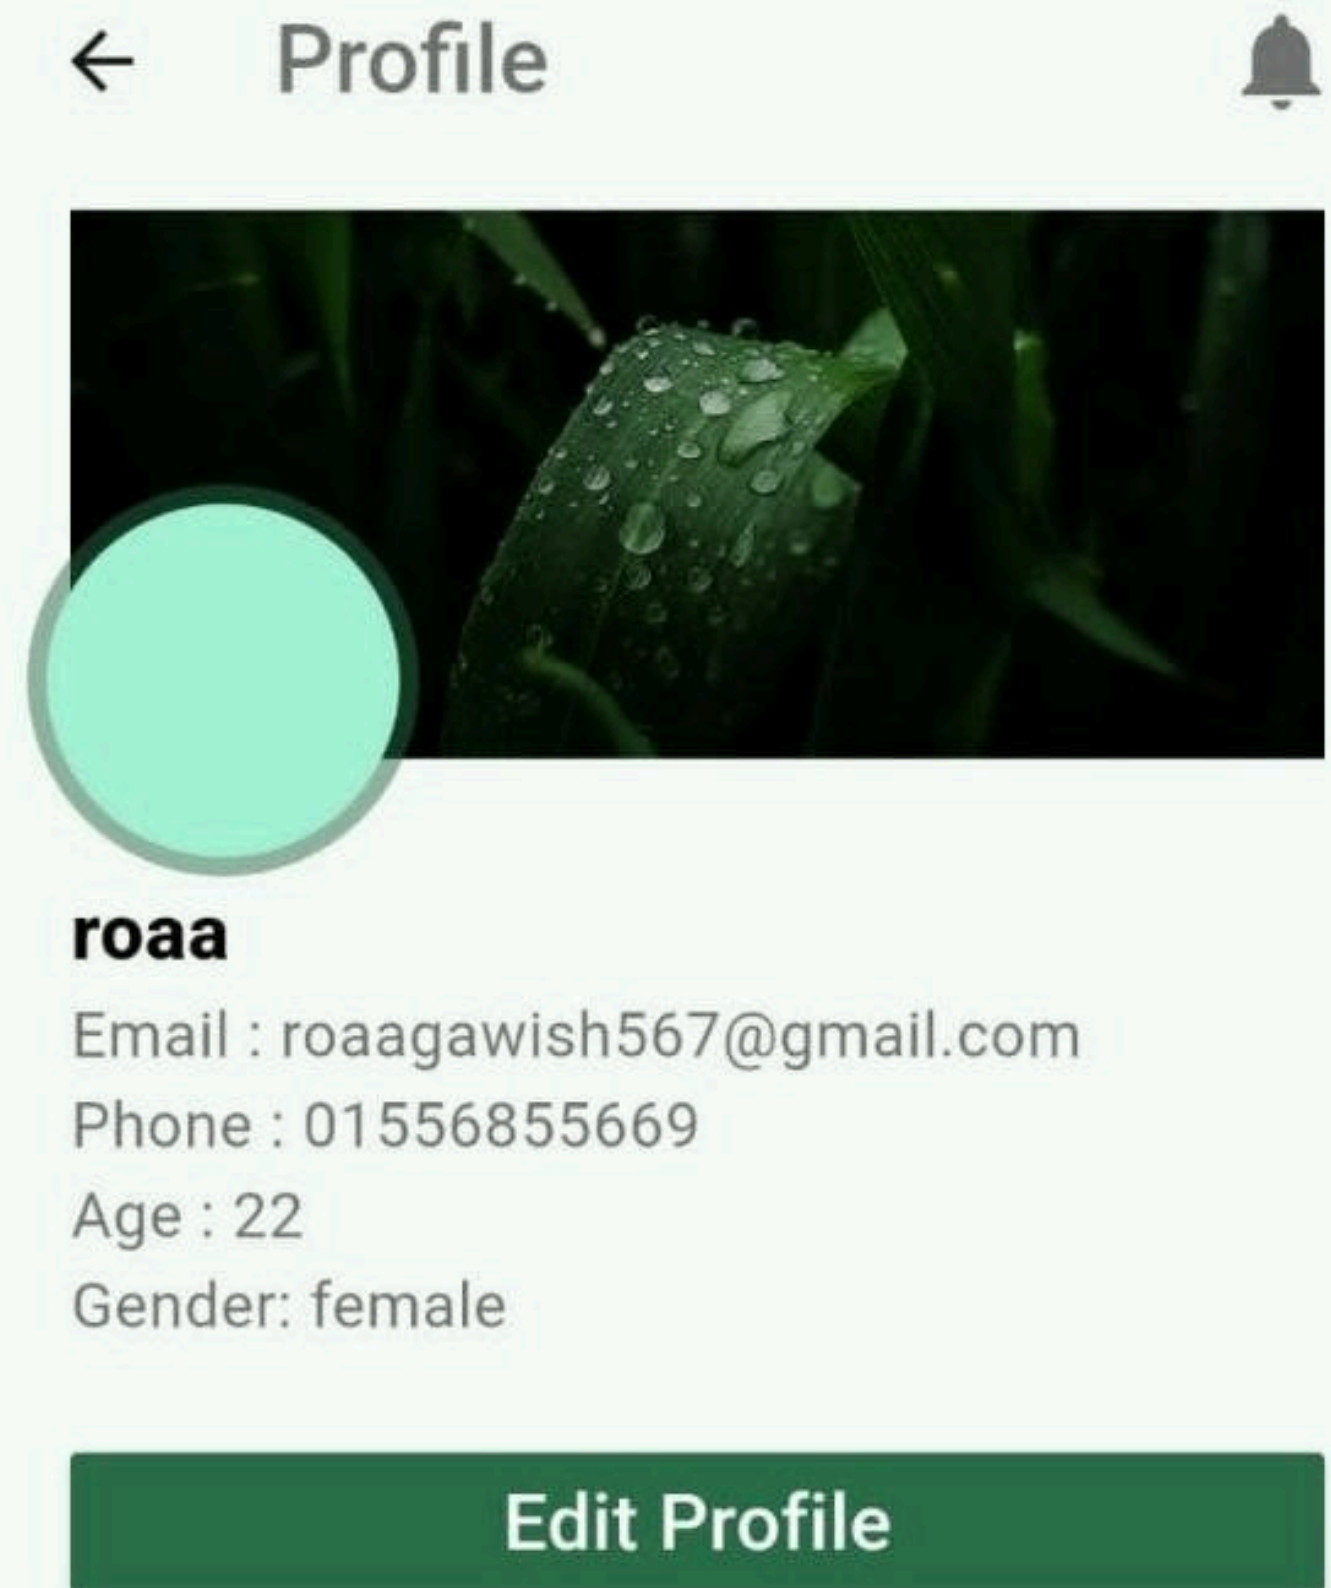

The AI chat feature allows customers to receive instant and reliable support on plant care and selecting the right species.

The AI provides a personalized experience through responses tailored to users' needs. The easy-to-use chat interface enhances customer satisfaction and encourages greater engagement.

# Profile Screen

The profile page displays the user's name, email, age, gender, and profile picture, with easy options to edit the information. It aims to provide a quick overview of the user and enhance communication among members.

The image features a light gray background with two thin, dark gray horizontal lines. A curved line enters from the top left, arching upwards and then downwards. Another curved line enters from the bottom right, arching upwards and then downwards.

Thanks for your time.
